Introducing the panels Although Photoshop runs in the browser, it uses panels to make editing easy. The system's panels are similar to the ones you see in a Windows application. Your Photoshop workspace and the browser view are essentially the same thing. The program's main workspace contains the following panels: * Image Bin: Contains the image for the current image session. * Image Layers panel: Displays each layer of the image as a different color, numbered layer from 0 to 99. The layer's name and the percentage of transparency appear in the layer's color (see Figure 5-4). Layers can be selected or deselected to turn off or on the layer and its contents. * Layers panel: Contains layers, a slider, and options to adjust the image's opacity, exposure, and levels. * Channels panel: Displays or hides the RGB and mask channels. You can save and restore layers in and out of the Channels panel. * Adjustments panel: Contains color adjustment sliders and other adjustments. FILE PHOTO: The logo of Swiss bank UBS is seen in front of the company's office building in Zurich, Switzerland January 29, 2016. REUTERS/Arnd Wiegmann/File Photo ZURICH (Reuters) - UBS UBSG.S is considering a sale of its digital banking unit, said people familiar with the matter. UBS UBSG.S is looking to sell the business and is planning to make a formal approach to other potential buyers, the people said. The unit, which accounts for about 35 percent of the Swiss bank's income, was created in 2015 after UBS split its retail banking operations. UBS's UBSG.S digital banking division reported a drop in first-half net income on Tuesday. [nCj67v7k8] UBS has received interest from other banks, including from HSBC HSBA.L, sources have said. The sources also said that French bank Societe Generale SA SGEN.PA is interested in buying an equity stake. UBS has already hired a number of bankers to manage the process, which would allow it to get rid of its unwanted bank after years of adapting its business model to meet new regulatory requirements. "The (digital banking) business is highly attractive, it's growing in all regions, and there is a very high demand for it," said one of the sources. It is unclear whether the potential sale would involve a full sale, or whether it would involve a partial sale that would keep the brand of the bank's UBS Bank. Representatives from UBS and HSBC and SocGen declined to comment. UBS has said that it would seek a "favorable outcome" for its unit and that it remains in talks with different parties.For the past couple of years the guys here have really embraced the Dabr name.
