WarGames: Defcon 1 (simply known as WarGames on PC) is a video game for the PlayStation and Microsoft Windows developed by Interactive Studios and. A Wii version is also available, as well as for mobile platforms. WarGame was originally released as a standalone game for the Wii console in 2005. Around this time, a game with the same graphics and gameplay called. In addition, the original game had the Nintendo DS game console released in 2006 and was ported to various platforms such as Wii and Xbox 360. A DS-exclusive version of the game was created. It is appropriate to recall that the literal translation of the game into English is â€œRussianâ€, although in the original title the game is called â€œWaroftheSoulsâ€. This is somewhat inaccurate, as the game has nothing to do with Soul Labyrinth. According to the plot, the game begins with the fact that in order to destroy the Tower of Satan, the player must get to the upper tier as soon as possible. The exact release date of the game is unknown, but the most likely date is the summer of 2007. The game includes 14 different character classes and four types of classes. Five unique abilities are available for all classes, some of which enhance, others weaken. Also, in all classes (except for the representative of the class of mediums), it is possible to buy them in a special store for special armor and weapons. Mods of the game that add various features to it were released before the release. These modifications were mainly aimed at improving the graphics. So, with the help of improvements developed on the basis of the Unreal Engine graphics engine, new game modes were implemented, such as a special video controlled by the player, and new combat equipment for the character - more accurate melee weapons and armor, which makes it possible to spend less energy. The power of telekinesis and the ability to create lightning are complemented by spells that cause them. Special equipment was created for the character. These are weapons, special armor and rare items. Individual classes in the game are referred to as "living", "existing", or "passive" classes. They are characterized by special abilities and skills, and their appearance depends on the class to which they belong. A passive class can switch to an active class when gaining experience and vice versa, which increases or decreases the stats of the
