I have to develop an excel report as my professor instructed The data source is an.xlsx file but on opening the report, the template and data does not show up. I am using following code to open the excel and plot it on the graph: Set Excelapp = CreateObject("Excel.Application") Excelapp.Visible = True Set wb = Excelapp.Workbooks.Open(FilePath) Excelapp.Visible = False wb.ChartObjects.Add(25, 25, 300, 300) wb.ChartObjects("Chart 1").Chart.SetSourceData Source:=Range("\$A1:\$O\$63") wb.ChartObjects("Chart 1").Chart.ChartType = xYScatterLines wb.ChartObjects("Chart 1").Chart.SeriesCollection.NewSeries wb.ChartObjects("Chart 1").Chart.SeriesCollection(1).Name = "Graph 1" wb.ChartObjects("Chart 1").Chart.SeriesCollection(1).XValues = "=Sheet1!\$A3:\$A\$63" wb.ChartObjects("Chart 1").Chart.SeriesCollection(1).Values = "=Sheet1!\$B\$3:\$B\$63" wb.ChartObjects("Chart 1").Chart.SeriesCollection(1).XValues = "=Sheet1!\$C\$3:\$C\$63" wb.ChartObjects("Chart 1").Chart.SeriesCollection(1).Values = "=Sheet1!\$D\$3:\$D\$63" wb.ChartObjects("Chart 1").Chart.Legend.Select I have checked the format of the file. There is no problem with the data. I have even tried to open the file using MSExcel, Worksheets, Charts, I have tried setting the source of the chart to the chart. Source data set, data only and data body and tried setting Range to \$A1:\$O\$63 but still no luck. Please help. A: According to the reference, chart in.xlsx file need to be added as ChartObject. So if we use chart type xYScatterLines (2 series, 1 data for each series), then we also need to set 3 xValues (X
